Index to Vol. XVII, 1895.

ABSORBENT blocks 472
Acetanilide, identification of 933
Acetic acid and benzene, formation of layers in mixtures of 932
Acetic acid in vinegar 741, 834
Acetone, improvement in manufacture of 187
Air, analysis of Cleveland 105
Alkaloids, acedimetric estimation of vegetable 822
Allylmalonic, allylacetic and ethylidenepropionic acids, behavior when boiled with caustic soda 1
Aluminum and iron, separation of 931
Ammonium citrate solution, preparation of 47
ANDREWS, LAUNCELOT. On the Analysis of Alloys of Lead, Tin, Antimony and Arsenic 869
ANDREWS, W. H. See Campbell, E. D.
ANDREWS, W. H. A Cheap Form of Self-Regulating Gas Generator 304
Anthracene series, experiments in 354
Antimonial and arsenical poisoning, a case of 667
Antimony, arsenic, tin and lead alloys, analysis of 869
Antimony, precipitation from tartar emetic 87
Argon, 219, 421; compounds of, 422; use in thermometry 477
Arsenical and antimonial poisoning, a case of 667
Arsenic, antimony, tin, and lead alloys, analysis of 869
Arsenic in glycerol 883
Asphalt, analysis of 55
ATKINSON, ELIZABETH A., and Edgar F. Smith. The Separation of Iron from Beryllium 688
Atomic weights, report of committee on 201
AUCHY, GEORGE. The Volumetric Estimation of Manganese 943
Austin, Peter T., and W. A. Horton. A Convenient Form of Universal Hand-Clamp .. 611
AUSTIN, PETER T., and W. Homer Broadhurst. Absorbent Blocks 472

BACHMAN, IRVING A. Improved Methods of Water Analysis, 296: Chemical Brick for Glover Towers 360
Bacilli, Composition of 605
Banquet to Messrs. Mond and Tyrer 997
Barium Hydroxide Solution as an absorbent for carbon dioxide 247
Barley, Proteids of 539
BARTON, G. E. Methods for the Examination of Glycerol for use in the Nitroglycerol Manufacture, 277; Arsenic in glycerol 883
BASKERVILLE, CHAS. Reactions between Copper and Concentrated Sulphuric Acid See also Venable, F. P. 904
BASSETT, LEWIS L., see Fleck, Hermann.
Beadle, C. See Cross, C. F.
BEESON, J. L. A Simple and Convenient Apparatus for Estimating the Water-Holding Power of Soils 769
Benzene and acetic acid, formation of layers in mixtures of 932
Beryllium. See Glucinum.
BEVAN, E. J. See Cross, C. F.
BIGELOW, W. D. Coloring Matter in the California Red Wines 213

BLAIR, A. A., and J Edward Whitfield. Ammonium Phosphomolybdate and the Reducing Action of Zinc in the Reductor 747
BLASDALE, WALTER C. On the Physical and Chemical Properties of Some California Oils 935
BLOMÉN, J. E. Some Practical Points in the Manufacture of Nitroglycerol, 263; On the Manufacture of Soluble Nitrocellulose for Nitrogelatine and Plastic Dynamites 411
Bone Black. analysis of, 51; decarbonization of 503
Books Received 916, 997
BOOK REVIEWS. A Text-Book of Volumetric Analysis (Schimpf) 69; A Text-Book of Inorganic Chemistry (Newth) 71; Die Maschinellen Hilfsmittel der chemischen Technik (Parnicke) 74; The Elementary Nature of Chlorine, Alembic Club Reprint No. 9 (Sir Humphrey Davy) 74; A Treatise on Industrial Photometry, with Special Application to Electric Lighting (Palaz) 151; Descriptive Inorganic General Chemistry (Freer) 152; A Text-Book of Inorganic Chemistry (Bennett) 243; Qualitative Analysis of Inorganic Substances, 245; Proceedings of the 11th Annual Convention of the Association of Official Agricultural Chemists (Wiley), 330; Bibliography of Acetoacetic Ester and its Derivatives (Seymour), 332; Report on the Extent and Character of Food and Drug Adulteration (Wedderburn), 333; Eighth Annual Report of the Dairy and Food Commissioner of Ohio, 333; First Annual Report of the Commissioner of Agriculture of New York (Schraub), 333; A Compilation of the Pharmacy and Drug Laws of the several States and Territories (Wedderburn), 333; Kräfte der chemischen Dynamik (Stettenheimer), 336; Elements of Qualitative and Quantitative Chemical Analysis (Caldwell), 419; Elementary Qualitative Chemical Analysis (Clowes), 419; Handbuch der Stereochemie (Bischoff), 497; A Text-Book of Organic Chemistry (Bernthsen), 500; Manual of Chemistry (Simon), 501; Cod Liver Oil and Chemistry, 584; The Increase in Weight of Tin and Lead on Calcination, 585; A Text-Book of Chemistry Intended for the use of Pharmaceutical and Medical Students (Sadtler and Trimble), 656; John Dalton and the Rise of Modern Chemistry (Roscoe), 658; An Elementary Course in Experimental and Analytical Chemistry (Long), 744; Elements of Mineralogy, Crystallography and Blowpipe Analysis (Moses and Parsons), 745; Elements of Modern Chemistry (Green and Keller), 832, Justus Von Liebig, His Life and Work (Shenstone), 833; Principles and Practice of Agricultural Analysis, Vol. I (Wiley), 912; A Hand-Book of Industrial Organic Chemistry (Sadtler), 914; A Manual of Qualitative Chemical Analysis (Harris), 994; Principles and Practice of Agricultural Analysis, vol. II (Wiley), 995; Laboratory Work in Chemistry (Keiser), 996.
BOWEN, N. C. The Penetration Machine—An Explanation 218
BOYER, CHARLES S. Accuracy of the Dyeing Test, 468; Interpretation of some results in the analysis of extracts of fustic 518
Butter, examination for foreign fats 719

CALCIUM carbide, properties of 306
Calcium sulphite, stalactites and stalagmites 242
CAMPBELL, E. D., and W. H. Andrews. The Determination of Nickel in Nickel-Steel 125
Cane sugar, determination in presence of glucose, 312; action of hydrochloric and acetic acids on 320
Carbides of iron with chromium (molybden and tungsten) 791
Chromium, determination in chrome ore 327
CLARK, EDMUND. Method of Determining Chromium in Chrome Ore 327
Clarke, F. W. Report on Atomic Weights Published during 1894 201
CLARKE, THOMAS, see Venable, F. P.
Coals, determination of heating effects of, ... 843
Condensation of nitric acid 576
Conflagrations, methods of extinguishing 137, 251, 361
Copper and concentrated sulphuric acid, reactions between 904

Copper, the wet assay for 346
Cotton, intended for manufacture of gun-cotton, inspection of 783
CRAVER, H. W. See Noyes, W. A.
CROSS, C. F., E. J. Bevan and C. Beadle. The Furfurol-yielding Constituents of Plants 286
CUSHMAN, ALLERTON S., and J. Hayes-Campbell. On the Volumetric Determination of Lead 901

DEBENNEVILLE, JAMES S. Two Definite Carbides of Iron with Chromium (Molybdenum and Tungsten) 791
DECHALMOT, G. On Silicides of Iron 923
DENNIS, L. M. Gerhard Krüss (Obituary Notice) 423
DEROODE, RUDOLF. Some Facts Observed in the Determination of Phosphoric Acid by the Molybdic Acid Process, 43; The Addition of Calcium Chloride to the Solution of a Fertilizer in the Determination of Potash, 46; On the Preparation of Ammonium Citrate Solution, 47; The Determination of Potash in Kainite, 85; The Oxidation of Organic Matter and the Decomposition of Ammonium Salts by Aqua Regia in Lieu of Ignition in the Determination of Potash in Fertilizers 86
DE SCHWEINITZ, E. A., and Marion Dorsett. The Composition of the Tuberculosis and Glanders Bacilli 605
Diastase, chemical nature of 587
DOREMUS, C. A. The Chemical History of a Case of Combined Antimonial and Arsenical Poisoning 667

DULIN, R. S. The Wet Assay for Copper 346
DUNNINGTON, F. P. An Improved Gas Regulator 781
Dyeing test, accuracy of 468

EHRENFELD, CHARLES HATCH. A Study of the Chemical Behavior of Tungsten and Molybdenum 381
Electrolytic analysis: Separations, 612; determination of ruthenium 652
Electrolytic reduction of paranitro compounds 855
Electrolytic separations 612
Elements, early American arrangement of the 947
Explosion pipette, modification of Hinman's 771

FATTY acids, separation of solid and liquid 289, 740
Ferrates, the 760
Ferrocyanides, new indicator for, 473; use of organic bases in preparation of 927
Fire extinguishers 137, 251, 361
FLECK, HERMANN, and Lewis L. Bassett. Reduction with Magnesium Amalgam 789
Food of the future, the synthetic 155
Furfurol yielding constituents of plants 286
Fustic, interpretations of results in analysis of extracts of 518

GARRIGUES, W. E. The Determination of Potash in Manures 47
Gas analysis, modification of Hinman's explosion pipette, 771; Determination of methane and hydrogen by explosion 986
Gas generator, self regulating, 304; new 809
Gas regulator, improved 781
GILL, AUGUSTUS H. A Modification of Hinman's Explosion Pipette 771
GILL, AUGUSTUS H., and Samuel P. Hunt. The Determination of Methane and Hydrogen by Explosion 986
GLADDING, THOMAS S. The Determination of Sulphur in Pyrites 397
Glover towers, chemical brick for 360

Glucinum salts, purification of 604
Glucinum, separation from iron 688
Glucose syrup and grape sugar, acidity of, 402 ; ash in 403
Glucose, use of sulphites in manufacture of 281
Glycerol, examination of, 277 ; arsenic in, 883 ; occurrence of trimethylene glycol in, 890
Graphite in pig-iron, determination of 873
GRIFFITH, A. B. and Charles Platt. On the Composition of Pelagine 877
GROSVENOR, WILLIAM M., JR. Some new Solvents for Perchromic Acid 41
Group V of periodic system, action of hydrochloric acid gas upon salts of the elements of, 682 ; action of haloid acid upon 735
Gum-cotton, inspection of cotton intended for manufacture of 783

HAND-CLAMP, convenient form of 611
HANDY, JAMES O. The Superiority of Barium Hydroxide Solution as an Absorbent in Carbon Determinations in Steel 247
HARE, C. L. A New Table for the Qualitative Separation of the Metals of the Iron Group 537
HARRIS, EDWARD P. A New Generator 809

NOVEMBER.

New Members Elected October 16....(63)
Changes of Address....(63)
Meetings of the Sections—
Lehigh Valley Section....(63)
Cincinnati Section....(65)
Rhode Island Section....(65)

DECEMBER.

Council....(67)
New Members Elected November 2....(67)
Associates Elected November 2....(68)
Changes of Address....(68)
Meetings of the Sections—
Chicago Section....(68)
New York Section....(68)
Washington Section....(70)
Cincinnati Section....(72)

PAPERS.

JANUARY.

On the Behavior of Allylmalonic, Allylacetic, and Ethylidenepropionic Acids when Boiled with Caustic Soda Solutions. By John G. Spenzer 1

The Phosphomolybdic Acid Test as Applied to Lard Analysis. By George F. Tennille 33

Some New Solvents for Perchromic Acid. By William M. Grosvenor, Jr 41

Some facts Observed in the Determination of Phosphoric Acid by the Molybdic Acid Process. By Rudolf de Roode 43

The Addition of Calcium Chloride to the Solution of a Fertilizer in the Determination of Potash. By Rudolf de Roode 46

On the Preparation of Ammonium Citrate Solution. By Rudolf de Roode 47

The Determination of Potash in Manures. By W. E. Garrigues 47

The Rapid and Accurate Analysis of Bone-black. By W. D. Horne. 51

The Asphalt Question. By S. F. Peckham 55

Quick Estimation of Starch. By P. L. Hibbard 64

Alkali and Sulphurous Acid Processes Used in the Manufacture of Starch from Corn. By Horace E. Horton 68

NEW BOOKS: A Text-Book of Volumetric Analysis, with Special Reference to the Volumetric Processes of the Pharmacopeia of the United States; A Text-Book of Inorganic Chemistry; Die Maschinellen Hilfsmittel der chemischen Technik; The Elementary Nature of Chlorine 69

FEBRUARY.

A Modified Arrangement of the Elements Under the Natural Law. By F. P. Venable 75

The Determination of Potash in Kainite. By Rudolf de Roode 85

The Oxidation of Organic Matter and the Decomposition of Ammonium Salts by Aqua Regia, in Lieu of Ignition, in the Determination of Potash in Fertilizers. By Rudolf de Roode 86

On Certain Phenomena Observed in the Precipitation of Antimony from Solutions of Potassium Antimonyl Tartrate. By J. H. Long 87

An Examination of the Atmosphere of a Large Manufacturing City. By Charles F. Mabery 105

A New Form of Water-Oven and Still. By Lewis William Hoffmann and Robert W. Hochstetter 122

The Determination of Nickel in Nickel-Steel. By E. D. Campbell and W. H. Andrews 125

The Volumetric Determination of Phosphorus in Steel and Cast Iron. By W. A. Noyes and J. S. Royse 129

The Contributions of Chemistry to the Methods of Preventing and Extinguishing Conflagration. By Thomas H. Norton 137

The Action of Organic and Mineral Acids Upon Soils. By Harry Snyder 148

NEW BOOKS: A Treatise on Industrial Photometry, with Special Application to Electric Lighting; Descriptive Inorganic General Chemistry 151

MARCH.

The Synthetic Food of the Future. By Harvey W. Wiley 155
The Determination of Phosphoric Acid. By H. Pemberton, Jr 178
On the Estimation of Sulphur in Pyrites. By G. Lunge 181
Improvement in the Manufacture of Acetone. By E. R. Squibb 187
Report of Committee on Atomic Weights, Published During 1894. By F. W. Clarke 201
Coloring-Matter in the California Red Wines. By W. D. Bigelow ... 213
The Penetration Machine—An Explanation. By H. C. Bowen 218
NOTES: Argon: A New Constituent of the Atmosphere; Calcium Sulphite Stalactites and Stalagmites 219
NEW BOOKS: A Text-Book of Inorganic Chemistry; Qualitative Chemical Analysis of Inorganic Substances as Practised in Georgetown College 243

APRIL.

The Superiority of Barium Hydroxide Solution as an Absorbent in Carbon Determinations in Steel. By James O. Handy 247
The Contributions of Chemistry to the Methods of Preventing and Extinguishing Conflagration. By Thomas H. Norton 251
Note on the Estimation of Iron and Alumina in Phosphates. By K. P. McElroy 260
Some Practical Points in the Manufacture of Nitroglycerol. By J. E. Bloménn 263
Methods for the Examination of Glycerol for use in the Nitroglycerol Manufacture. By G. E. Barton 277
Estimation of Tellurium in Copper Bullion. By Cabell Whitehead . 280
The Use of Sulphurous Acid ($HNaSO_3$) in Manufacture of Glucose Syrup and Grape-Sugar. By Horace E. Horton 281
The Furfurol-Yielding Constituents of Plants. By C. F. Cross, E. J. Bevan, and C. Beadle 286
The Separation of Solid and Liquid Fatty Acids. By E. Twitchell .. 289
Improved Methods of Water Analysis. By Irving A. Bachman 296
A Cheap Form of Self-Regulating Gas Generator. By W. W. Andrews 304
Some of the Properties of Calcium Carbide. By F. P. Venable and Thomas Clarke 306
Note on the Determination of Zinc. By P. W. Shimer 310
On the Determination of Cane-Sugar in the Presence of Commercial Glucose. By H. A. Weber and William McPherson 312
On the Action of Acetic and Hydrochloric Acids on Sucrose. By H. A. Weber and William McPherson 320
Method of Determining Chromium in Chrome Ore. By Edmund Clark 327
NEW BOOKS: Proceedings of the Eleventh Annual Convention of the Association of Official Agricultural Chemists; Bibliography of Aceto-Acetic Ester and its Derivatives; Report on the Extent and

Character of Food and Drug Adulteration; Eighth Annual Report of the Dairy and Food Commissioner of Ohio; First Annual Report of the Commissioner of Agriculture of New York; A Compilation of the Pharmacy and Drug Laws of the Several States and Territories; Kräfte der Chemischen Dynamik 330

NOTES: An Improvement on the "Dangler's Laboratory Lamp"; Spurting in Cupellation; A Substitute for Hydrogen Sulphide .. 337

MAY.

Henry Bradford Nason 339

Methods for the Determination of Manganese. By W. S. Thomas ... 341

The Wet Assay for Copper. By R. S. Dulin 346

On the Standardization of Sulphuric Acid. By F. S. Shiver 351

On Some Experiments in the Anthracene Series. By C. E. Linebarger 354

On the Reaction Between Zinc Sulphate and Potassium Hydroxide. By C. E. Linebarger 358

Chemical Brick for Glover Towers. By Irving A. Bachman 360

The Contributions of Chemistry to the Methods of Preventing and Extinguishing Conflagration. By Thomas H. Norton 361

A Study of the Chemical Behavior of Tungsten and Molybdenum and their Trioxides. By Charles Hatch Ehrenfeld 381

The Determination of Sulphur in Pyrites. A Reply to Dr. Lunge. By Thomas S. Gladding 397

Acidity of Glucose Syrup and Grape-Sugar. By Horace E. Horton .. 402

Ash in Glucose Syrup and Grape-Sugar. By H. E. Horton 403

The Zimmermann-Reinhardt Method for the Determination of Iron in Iron Ores. By C. T. Mixer and H. W. DuBois 405

On the Manufacture of Soluble Nitrocellulose for Nitrogelatine and Plastic Dynamites. By J. E. Blomèn 411

NEW BOOKS: Elements of Qualitative and Quantitative Chemical Analysis; Elementary Qualitative Chemical Analysis 419

NOTES: A New Hydrogen Sulphide Generator; Molybdenum Carbide; The Gas Contained in Uraninite; Compounds of Argon 420

Errata 422

JUNE.

Gerhard Krüss 423

The Proteids of the Rye Kernel. By Thomas B. Osborne 429

Zirconium Sulphite. By F. P. Venable and Charles Baskerville 448

On Some Conditions Affecting the Accuracy of the Determination of Potash as Potassium Platinichloride. By A. L. Winton 453

The Indirect Analysis of Mixtures Containing a Common Constituent. By Edward K. Landis 466

Accuracy of the Dyeing Test. By Charles S. Boyer 468

Absorbent Blocks. By Peter T. Austen and W. Homer Broadhurst .. 472

The Volumetric Determination of Zinc and a New Indicator for Ferrocyanide. By Geo. C. Stone 473

Some Physical Aspects of the new Gas, Argon. The Ideal Thmreometrical Substance for High Temperatures. By W. R. Quinan .. 477

The Tungstates and Molybdates of the Rare Earths. By Fanny R. M. Hitchcock 483
Some New Laboratory Apparatus. By Ewald Sauer 494
NEW BOOKS: Handbuch der Stereochemie; A Text-Book of Organic Chemistry; Manual of Chemistry 497
NOTES: Note on a Molding-sand 502

JULY.

The Decarbonization of Bone-Black. By W. D. Horne 503
Sulphiodide of Lead. By Victor Lehner 511
On the Determination of Small Quantities of Phosphoric Acid by the Citrate Method. By E. G. Runyan and H. W. Wiley 513
An Arrangement for Washing Precipitates with Boiling Water. By Frank F. Jewett 517
Interpretation of Some Results in the Analysis of Extracts of Fustic. By Charles S. Boyer 518
The Tungstates and Molybdates of the Rare Earths. By Fanny R. M. Hitchcock 520
A New Table for the Qualitative Separation of the Metals of the Iron Group. By C. L. Hare 537
The Proteids of Barley. By Thomas B. Osborne 539
The Determination of Nitrogen in Fertilizers Containing Nitrates. By H. C. Sherman 567
On Condensation; and especially on the Condensation of Nitric Acid. By Edward Hart 576
Some Points in the Distillation of Nitric Acid. By Edward Hart 580
NEW BOOKS: Cod-Liver Oil and Chemistry; The Increase in Weight of Tin and Lead on Calcination 584
Professor Mark Powers 586

AUGUST.

The Chemical Nature of Diastase. By Thomas B. Osborne 587
Note on the Purification of Glucinum Salts. By Edward Hart 604
The Composition of the Tuberculosis and Glanders Bacilli. By E. A. de Schweinitz and Marion Dorsett 605
A Convenient Form of Universal Hand-clamp. By Peter T. Austen and W. A. Horton 611
Electrolytic Separations. By Edgar F. Smith and Daniel L. Wallace 612
On the Vapor-Tensions of Mixtures of Volatile Liquids. By C. E. Linebarger 615
The Electrolytic Determination of Ruthenium. By Edgar F. Smith and Harry B. Harris 652
The Action of Phosphorus Pentachloride Upon the Dioxides of Zirconium and Thorium. By Edgar F. Smith and Harry B. Harris .. 654
NEW BOOKS: A Text-Book of Chemistry Intended for the Use of Pharmaceutical and Medical Students; John Dalton and the Rise of Modern Chemistry 656
Dr. Gideon E. Moore 659
Lothar von Meyer 664

SEPTEMBER.

The Chemical History of a Case of Combined Antimonial and Arsenical Poisoning. By Charles A. Doremus, M.D., PH.D 667

Action of Hydrochloric Acid Gas upon Salts of the Elements of Group V of the Periodic System. By Edgar F. Smith and Jos. G. Hibbs 682
Uranium Oxynitride and Uranium Dioxide. By Edgar F. Smith and J. Merritt Matthews 686
The Separation of Iron from Beryllium. By Elizabeth A. Atkinson and Edgar F. Smith 688
On the Vapor-Tensions of Mixtures of Volatile Liquids. By C. E. Linebarger 690
Warning Against the Use of Fluoriferous Hydrogen Peroxide in Estimating Titanium. By W. F. Hillebrand 718
The Viscosimetric Examination of Butter for Foreign Fats. By Dr. Newmann Wender 719
The Examination of Lard for Impurities. By David Wesson 723
The Action of Haloid Acids in Gas Form upon the Salts of Elements of Group V of the Periodic System. By Edgar F. Smith and Fred. L. Meyer 735
Separation of Solid and Liquid Fatty Acids. By L. de Koningh 740
Acetic Acid in Vinegar. By Albert R. Leeds 741
NEW BOOKS: An Elementary Course in Experimental and Analytical Chemistry. Elements of Mineralogy, Crystallography and Blowpipe Analysis 744

OCTOBER.

Ammonium Phosphomolybdate and the Reducing Action of Zinc in the Reductor. By Andrew A. Blair and J. Edward Whitfield 747
The Ferrates. By Claude A. O. Rosell 760
A Simple and Convenient Apparatus for Estimating the Water-holding Power of Soils. By J. L. Beeson 769
A Modification of Hinman's Explosion Pipette. By Augustus H. Gill 771
Estimation of Sulphur in Pyrites. By G. Lunge 772
The Periodides. By A. B. Prescott 775
An Improved Gas Regulator. By F. P. Dunnington 781
Inspection of Cotton for Use in the Manufacture of Guncotton. By Charles E. Munroe 783
Reduction with Magnesium Amalgam. By Hermann Fleck and Lewis L. Bassett 789
Two Definite Carbides of Iron with Chromium (Molybdenum and Tungsten). By James S. de Benneville 791
On the Possibility of the Occurrence of Hydrogen and Methane in the Atmosphere. By Francis C. Phillips 801
A New Generator. By Edward P. Harris 809
The Determination of Tannin by Metallic Oxides. By William H. Krug 811
The Estimation of Sulphur in Refined Copper. By G. L. Heath 814
Acidimetric Estimation of Vegetable Alkaloids. By Lyman F. Kebler 822
NEW BOOKS: Elements of Modern Chemistry; Justus Von Liebig, His Life and Work 832
NOTE: Determination of Acetic Acid in Vinegar 834

NOVEMBER.

An Electrolytic Process for the Manufacture of White Lead. By R. P. Williams 835
The Chlorides of Zirconium. By F. P. Venable 842
The Determination of the Heating Effects of Coals. By W. A. Noyes, J. R. McTaggart, and H. W. Craver 843
Tellurium: Its Separation from Copper Residues with Notes on Some New Reactions. By Cabell Whitehead 849

The Electrolytic Reduction of Paranitro Compounds in Sulphuric Acid Solution. By Arthur A. Noyes and John T. Dorrance..... 855
Periodides of Pyridine. By A. B. Prescott and P. F. Trowbridge.... 859
On the Analysis of Alloys of Lead, Tin, Antimony and Arsenic. By Launcelot Andrews..... 869
The Determination of Graphite in Pig Iron. By P. W. Shimer..... 873
On the Composition of Pelagine. By A. B. Griffith and Charles Platt 877
On the Volumetric Determination of Titanic Acid and Iron in Ores. By H. L. Wells and W L. Mitchell..... 878
Arsenic in Glycerol. By G. E. Barton..... 883
The Occurrence of Trimethylene Glycol as a By-Product in the Glycerol Manufacture. By Arthur A. Noyes and Willard H. Watkins..... 890
The Evolution Method for the Determination of Sulphur in White Cast-Iron. By Francis C. Phillips..... 891
On the Volumetric Determination of Lead. By Allerton S. Cushman and J. Hayes-Campbell..... 901
Reactions Between Copper and Concentrated Sulphuric Acid. By Chas. Baskerville..... 904
NEW BOOKS: Principles and Practice of Agricultural Analysis; A Hand-Book of Industrial Organic Chemistry..... 912
Books Received..... 916

DECEMBER.

A Convenient Still for the Laboratory. By Charles E. Wait..... 917
On the Estimation of the Extraction in Sugar Houses. By M. Trubek..... 920
On Silicides of Iron. By G. de Chalmot..... 923
Estimation of Phosphoric Acid in Soils by Double Precipitation with Molybdic Solution and Titration of the Ammonium Phosphomolybdate with Standard Alkali. By C. B. Williams..... 925
On the Use of Organic Bases in the Preparation of Barium and Calcium Ferrocyanides. By Percy H. Walker..... 927
On the Formation of Layers in Mixtures of Acetic Acid and Benzene. By C. E. Linebarger..... 932
Scheme for the Identification of Acetanalide, Phenacetine, Quinine Sulphate, etc. By F. S. Hyde..... 933
On the Physical and Chemical Properties of Some California Oils. By Walter C. Blasdale..... 935
The Determination of Phosphoric Acid by the Molybdate-Magnesia Method, and by Volumetric Method. By B. W. Kilgore..... 941
The Volumetric Estimation of Manganese. By George Auchy..... 943
An Early Arrangement of the Elements. By F. P. Venable..... 947
On the Estimation of Phosphoric Acid by Titration of the Ammonium Phosphomolybdate Precipitate with Standard Alkali. By B. W. Kilgore..... 950
The Relationship of the Heat of Vaporization of Gases to their Density and also to their Boiling Point. By Wm. L. Dudley..... 969
The Determination of Methane and Hydrogen by Explosion. By Augustus H. Gill and Samuel P. Hunt..... 986
NEW BOOKS: A Manual of Qualitative Chemical Analysis; Principles and Practice of Agricultural Analysis; Laboratory Work in Chemistry..... 994
Books received..... 997
NOTE: The Banquet to Messrs. Mond and Tyrer..... 997
Errata..... 999
A Tribute to Pasteur..... 1000
